SUMMARY

Ph.D. in Steganography with 3+ years of experience in developing and deploying computer vision solutions for industrial safety and productivity. Proven track record of prototyping scalable AI models and collaborating with cross-functional teams to deliver impactful results.

EXPERIENCE

- **KamerAI Pvt. Ltd.** Chennai, TN, IN
Sr. Software Engineer (3+ years) May. 2021 – Present
 - Built prototypes and created end-to-end data pipelines to deploy Object Detection and Activity Recognition in industrial environments.
 - Designed and built ML pipelines for inexperienced staff to work with data and train models in a fast paced and dynamic work environment.
 - Collaborated with internal engineering and product teams and while working closely with clients to design Computer Vision models tailored to industrial safety and compliance needs, directly affecting productivity metrics.
 - Mentored 5+ trainees and interns in model training and testing pipelines.
- **VIT–Vellore** Vellore, TN, IN
Teaching and Research Assistant (4 years) Jan. 2016 – Jan. 2020
 - Researched Steganography algorithms for secure communication. Credited with 6 publications in reputed peer-reviewed publications.
 - Taught courses to classes of over 60 students and assisted the professors in devising practical experiments, tests and revision sessions.
 - Mentored over 30 undergraduate students leading to multiple conference presentations and prototypes.

PROJECTS

- **Barcode Detection:** Created the data processing pipeline and trained light weight models for detecting and decoding PDF417 codes resulting in approximately 50% reduction in hardware cost.
- **Face Recognition:** Set up the data and model training pipeline for recognizing faces in an industrial environment. Developed embedding models for detecting and recognizing faces of Indian and Asian origin with 99% accuracy.
- **Kamerai Safety Solution:** Worked as part of a team to develop Risk Detection, Object Monitoring and Compliance application for deployment at the client's warehouses and factories. Leveraged the client's established CCTV network to collect data for monitoring PPE and MHE compliance.
- **Kamerai Productivity Solution:** Owned the development and deployment of the KamerAI Productivity Solution for a major manufacturing client. Collaborated with the client and the KamerAI team to develop productivity and ergonomics dashboards. Trained and deployed ML models across 5 manufacturing stages. Achieved 100% reduction of errors in 2 stages and enhancing overall efficiency.

EDUCATION

- **Vellore Institute of Technology** Vellore, TN, India
Doctorate (Ph.D.) in Steganography Algorithms Jun.2015 – Dec. 2020
- **Vellore Institute of Technology** Vellore, TN, India
Master of Technology (M.Tech.) in Communication Engineering Jun.2013 – May. 2015
- **K. J. Somaiya College of Engineering** Mumbai, MH, India
Bachelor of Engineering (B.E.) in Electronics Engineering Aug. 2007 – July. 2012

SKILLS

- **Programming/Scripting Languages:** Python, R, Matlab
- **Toolkits/Packages:** OpenCV, TensorFlow, Pytorch, Scipy, Scikit Learn, Pandas, Matplotlib, Nvidia TAO, Ultralytics
- Statistical analysis, experimental design, confidence intervals, error measurements and hypothesis testing.
- Experience using Linux with git for version control and familiarity with AWS compute (EC2) and storage products (S3).
